

Change Proposal – F40/02 (Page 1 of 2)	CP No: 797 <i>(mandatory by BSCCo)</i>
Title <i>(mandatory by originator)</i> Provide a full flow for the RF (Final Reconciliation) run of the SAA I014 Flow 2 System Operator	
Description of Change <i>(mandatory by originator)</i> Currently the only full flow of the SAA I014 SO flow is the II (Interim Initial) run. For subsequent runs certain information is only included if it has changed. There have been many settlement re-runs for various settlement dates but at present there is no flow that gives the final position taking into account any or all of the amendments in the previous runs.	
Proposed Solution(s) <i>(mandatory by originator)</i> To make the RF run of SAA I014 SO flow a full flow run capturing the final position of all changes that have taken place in previous runs.	
Justification for Change <i>(mandatory by originator)</i> Providing a full flow settlement run (RF) will give the final definitive position of settlement data taking into account all changes in previous settlement runs. It will enable National Grid and other industry participants to have access to the same definitive set of accurate and final data. This will assist with the calculation of final National Grid charges and with the resolution of any outstanding disputes.	
Change Proposal – F40/01 (Page 2 of 2)	CP No: <i>(mandatory by BSCCo)</i>

Other Configurable Items Potentially Affected by Proposed Solution(s) (optional by BSCCo)

Impact on Core Industry Documents (optional by originator)

None Anticipated
