

Change Proposal – F40/02 (Page 1 of 2)	CP No: 794 <i>(mandatory by BSCCo)</i>
Title <i>(mandatory by originator)</i> Removal of requirement for CT certificates for LV CTs	
Description of Change <i>(mandatory by originator)</i> The present requirement (contained in BSCPs and CoPs) for CTs requires MOAs to procure test certificates for all CTs from Distribution Businesses and pass copies to the TAA as requested. This requirement has proved difficult and expensive to administer. There are many outstanding non compliances resulting from the failure of Distribution Businesses to supply the certificates. LV CTs have been manufactured to Class 0.5 or better for some years now. Elexon have recently examined sample test certificates from all Distribution Businesses, in order to consider generic certificates. This work has indicated that all CTs manufactured to Class 0.5, or better, have the accuracy required for CoPs 3 and 5. It is therefore proposed that the requirement for CT test certificates for LV is no longer necessary and should be removed provided the CTs can be identified as Class 0.5 or better.	
Proposed Solution(s) <i>(mandatory by originator)</i> The requirement for test certificates for LV CTs shall be removed from BSCPs and CoPs as described above.	
Justification for Change <i>(mandatory by originator)</i> This proposal will simplify metering installation, registration and Technical Assurance. There will be savings for MOAs (no longer necessary to chase Distribution Businesses, fewer difficulties with Technical Assurance, less non compliances to administer, etc.), Distribution Businesses (fewer difficulties in administering a retrieval system for Test Certificates), Technical Assurance (less non compliances, no need to chase MOAs for missing certificates, etc), Suppliers (no need to chase MOAs on non compliances). The reduction in non compliances will allow a better appreciation of real, rather than perceived, faults and a consequent increase in assurance. This proposal will not affect settlement processes and no changes in dataflows will be required.	

Change Proposal – F40/01 (Page 2 of 2)	CP No: 794 <i>(mandatory by BSCCo)</i>
Other Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by BSCCo)</i>	
Impact on Core Industry Documents <i>(optional by originator)</i> BSCPs 26 and 526, CoPs 3 and 5.
