

Change Proposal – F40/01 (Page 1 of 2)	CP No: 804 <i>(mandatory by BSCCo)</i>
<p>Title <i>(mandatory by originator)</i></p> <p>Enhance D0268 'Half Hourly Meter Technical Details' within the BSC SVA Data Catalogue in relation to removed meters.</p>	
<p>Description of Change <i>(mandatory by originator)</i></p> <p>Apply a further improvement to the D0268 'Half Hourly Meter Technical Details' dataflow within the BSC SVA Data Catalogue to better reflect an existing manual process which is being operated in the half hourly market relating to removed meters.</p> <p>An improvement was originally proposed to the D0268 dataflow via CP772 (Enhance D0268 'Half Hourly Meter Technical Details' within the Code Subsidiary Documents) and MRA DTC CP3134 (Add 'Date of Meter Removal' (J1269) to the D0268). CP772 and MRA DTC CP3134 proposed to add the data item 'Date of Meter Removal' to the D0268 dataflow. This data item was intended to be included in the 'Meter Details' group of the D0268 dataflow.</p> <p>Subsequently, an alternative implementation is being proposed via this CP and MRA DTC CP3135 (Amendments to D0268 to incorporate Siemens Metering suggestion regarding DTC CP3134), such that a new group is created within the D0268 dataflow called 'Meters Removed' with the 'Meter Id' and 'Date of Meter Removal' data items being included within it. This information would identify the date when a half hourly meter has been removed.</p> <p>This CP is therefore intended to replace that element of CP772 dealing with removed meters; all other proposed changes remain valid. In addition MRA DTC CP3135 is intended to replace MRA DTC CP3134 in its entirety.</p>	
<p>Proposed Solution(s) <i>(mandatory by originator)</i></p> <p>Modify the BSC SVA Data Catalogue as outlined in the attachment. There is no impact on any BSCP or PSL.</p>	
<p>Justification for Change <i>(mandatory by originator)</i></p> <p>This CP enables the date of half hourly meter removals to be recorded in an improved manner. The CP also ensures consistency with MRA DTC CP3135.</p>	
<p>Other Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by BSCCo)</i></p> <p>None.</p>	
<p>Impact on Core Industry Documents <i>(optional by originator)</i></p> <p>There is an impact on the DTC. MRA DTC CP3135 (Amendments to D0268 to incorporate Siemens Metering suggestion regarding DTC CP 3134) proposes the equivalent changes to the DTC.</p>	

Change Proposal – F40/01 (Page 2 of 2)	CP No: <i>(mandatory by BSCCo)</i>
Related Changes and/or Projects <i>(mandatory by BSCCo)</i> This CP will supersede the element of CP772 relating to the date of the removal of half hourly meters. All other aspects of CP772 remain valid.
