<p>Title Amendments and Clarifications to BSCP75 for the CDCA Improvement Project</p>	
<p>Description of Change This CP seeks to align BSCP75 with the changing and improved processes enabled by the CDCA Improvement Project. The CDCA Improvement Project is a LOGICA project to rectify shortcomings in the existing CDCA service. This CP is intended to complement the improvements agreed to the CDCA service and reflect agreed custom and practice of the BSC Agent in BSCP75.</p> <p>The opportunity has also been taken to undertake general housekeeping on BSCP75 to ensure that the wording, expressions and timescales used within the document are clear and consistent with related documentation.</p>	
<p>Proposed Solution(s) Amend BSCP75 with the following changes for inclusion in the CDCA Improvement Project:</p> <ul style="list-style-type: none"> ❑ Improve the wording of the second bullet point in section 1.3 to read "Selection of Aggregation Rules for Range CCGT Modules within the timescales as defined in the Grid Code". ❑ Include wording in Section 1.3 to reflect that the timescales for the registration of Aggregation Rules can be reduced upon agreement between all relevant parties (i.e the CDCA, the BSC Co and the registering Party) ❑ Amend form BSCP75/4.2 to enable the requirements of 3.1.3. ❑ Split section 3.1.8 into two different stages. The new stage created will consist of greater detail on the CDCA requesting revised GSP Group Take from a DSO. ❑ Section 4.1.2, Second Paragraph will be amended to reference BSCP 15 and to change "Code Rules" to "Code". ❑ Amend BSCP75/4.2 to include an acknowledgement slip which will be completed by the CDCA and returned to the party. Improve clarity and presentation of the form. Amend Section 2 to reference GSP. ❑ Add the acronyms BMU, GSP, DSCP and LLF to the two columns entitled "MSQ OR ER" and "MSQ, ER, LLF" in Section 2 of BSCP75/4.2. ❑ Further analysis will be undertaken during the drafting of the finalised version to enable further clarifications and improvements. These will include referencing the relevant data flows wherever appropriate and improving grammar and formatting issues throughout the document and related forms. 	
<p>Justification for Change These amendments to BSCP75 ensure consistency with the CDCA systems and processes to be implemented by the CDCA Improvement Project. These changes would enable a clearer, more efficient service that would benefit all Parties.</p>	
<p>Other Configurable Items Potentially Affected by Proposed Solution(s) (optional by BSCCo)</p> <p>The BSC Agent will update the CDCA URS, etc to reflect the change to the services.</p>	

Impact on Core Industry Documents *(optional by originator)*

Related Changes and/or Projects *(mandatory by BSCCo)*

There will be a suite of changes to CDCA BSCPs (03, 15, 20, 75) covered by the CDCA Improvement Project. These changes are all aimed at improving the effectiveness and usability of the BSCPs.
