

Change Proposal – F40/02 (Page 1 of 2)	CP No:769 <i>(mandatory by BSCCo)</i>
Title: Improved 'Manage Instruction Files' and 'Browse File Loading Statuses' NHHDA screens	
<p>Description of Change</p> <p>The current 'Manage Instruction Files' NHHDA screen is not very informative when dealing with received Instruction File problems such as duplicated Files, i.e. files with the same File Sequence Number but with different contents. This situation recently arose at a NHHDA site (PMR 28999), and the ensuing debate at STAG revealed that the 'Manage Instruction Files' screen did not supply sufficient information for the users to understand, resolve and manage the problems in this area. All STAG members agreed that this screen should be improved with additional information to make it much more useful.</p> <p>During the investigation and analyst of the requested improvements, it was also identified that the 'Browse File Loading Statuses' screen could also be improved with the same information to make it much more productive to the NHHDA users.</p>	
<p>Proposed Solution(s)</p> <p>The 'Manage Instruction Files' screen will have additional columns to display the received Instruction Files:</p> <ul style="list-style-type: none"> • File Name • Instruction Sequence Number (both first and last) <p>The 'Browse File Loading Statuses' screen will have additional fields in the 'Instruction' group to display the Instruction Files:</p> <ul style="list-style-type: none"> • File Sequence Number • Instruction Sequence Number (both first and last) • Original File Name <p>The proposed revised screen layouts for both these screens has been included as an attachment (see Annex A)</p>	
<p>Justification for Change</p> <ol style="list-style-type: none"> 1. The improved screens will enable NHHDA users to better understand, resolve and manage received File problems. 2. STAG26 strongly endorsed the proposed changes and asked that it be pursued as a matter of urgency for inclusion in the NHHDA 7.2.3 release. 	
<p>Other Configurable Items Potentially Affected by Proposed Solution(s)</p> <p>NHHDA Operation Guide.</p>	
<p>Impact on Core Industry Documents</p> <p>None.</p>	
<p>Related Changes and/or Projects</p> <p>None.</p>
