<b>Change Proposal – F40/01 (Page 1 of 2)</b>	<b>CP No: 645</b> <i>(mandatory by BSCCo)</i>
<b>Title</b> <i>(mandatory by originator)</i> <b>Incorrect Default Rules for missing DA Data in SSL300</b>	
<b>Description of Change</b> <i>(mandatory by originator)</i>  When SIR R2717 was implemented and the defaulting rules for missing Data Aggregator files for Initial Settlement were amended in SL300 (and consequently SSL300) the following text was included in section 1.7.6.1 for defaulting arrangements:  "Missing Non Half Hour Data Aggregator / Half Hour Data Aggregator data - substitute data from the previous Settlement Day with sufficient number of Settlement Periods in respect of each Supplier / Data Aggregator combination;"  These defaulting rules, however, are incorrect, and are valid for NHHDA's only as was agreed by TS2 at the time. The defaulting rules for HHDAs are different and should be:  "Missing Half Hour Data Aggregator data - for Weekday, Saturday and Sunday Day Types substitute data from the previous Settlement Day of the same Day Type and for all other Day Types substitute data from the previous Sunday Day Type Settlement Day, with sufficient number of Settlement Periods in respect of each Supplier / Data Aggregator combinations;"	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  Remove reference to Half Hour Data Aggregator in section 1.7.6.1 of SSL300.  Insert a new section before section 1.7.6.2, containing the following text:  "Missing Half Hour Data Aggregator data - for Weekday, Saturday and Sunday Day Types substitute data from the previous Settlement Day of the same Day Type and for all other Day Types substitute data from the previous Sunday Day Type Settlement Day, with sufficient number of Settlement Periods in respect of each Supplier / Data Aggregator combinations;"  Renumber the subsequent sub-sections of 1.7.6.	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  The current documentation is inconsistent with the agreed defaulting arrangements and could lead to confusion and the settling of inaccurate consumption data.	
<b>Other Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by BSCCo)</i>	
<b>Impact on Core Industry Documents</b> <i>(optional by originator)</i>  Could possibly impact SL300.
