NETA Programme Change Request Form			
Change Request ID: NCR334			
Change Request Name:		Priority	
BSCP 26; Change to timing of notification of site Visit		Critical for Go live	Desirable for Go Live
		Not needed for Go Live	
Identified By: Drew McGregor		Date Submitted: 12/02/2001	
Description of Proposed Change: All references are to BSCP 26 v 2.0 1. Paragraph 1.3, second bullet point: change !0 WD to 20 WD 2. Paragraph 1.9, first sentence: change 10 WD to 20 WD 3. Table 3.4, ref. 3.4.1: in "when" column change 10 WD to 20 WD 4. Table 3.4, ref. 3.4.2: in "when" column change 10 WD to 20 WD			
Reason for Proposed Change (Benefits) and/or Implications of not making the Change: During the inconsistency checking exercise, inconsistencies in timings were identified between the Code, BSCP 26 and the TAA_URS. The Code specified 20 WD notice for a Site Visit, BSCP 26 specified 30 WD and the TAA_URS specified 10 WD. BSCP 26 was modified (NCR 225) to align it with the TAA_URS (i.e. the Registrant receives 10 WD notice of a proposed Technical Assurance Visit from the TAA). A change request was also raised to remove the 20 WD from the Code and refer all timings to the relevant BSCP. This change request was subject to the consultation process and a response has been received which stated that the Registrant should get as much time as possible to make the necessary arrangements for a sit visit and the timing should not be reduced. This proposed change in the BSCP from 10 WD to 20 WD does not have any software implications and the Service Provider has indicated that it could be accommodated. Increasing the notice period a registrant receives about a TAA site Visit will enable him to make all the necessary arrangements with his MOA and, if appropriate, the Site owner in a more realistic timescale.
