

<b>Change Proposal – F40/01 (Page 1 of 2)</b>	CP No: 568 <i>(mandatory by BSCCo)</i>
<b>Title</b> <i>(mandatory by originator)</i> PR807 – BSCP15 allocation of BM Units	
<b>Description of Change</b> <i>(mandatory by originator)</i>  NCR 359 deals with BM Unit registration.  <i>This Change Proposal addresses NCR 359</i>	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  Amend BSCP15 3.3.1 to "Notification of a new Supplier and Base BM Unit Ids."	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  <b>PR0807 Issue</b> "NTCC Reference 620 of the PST Reg script refers to ELEXON sending notification of the Supplier Id and associated Base BM Unit Ids to CRA on notification of a New Supplier, supported by BSCP15 3.3.1. However, the actual process, as defined in CRA-F001 / CRA-F013, BSC Section K 3.3.1 all support the operational process whereby the Base BM Units are generated automatically on registration of a Party as a Supplier, with the BM Unit Ids being allocated according to a defined and 'known' algorithm. The notification of Supplier registration / information from ELEXON and CRA is covered by BSCP65 3.1.6 and BSCP65 3.1.11 and, as such, appear to be notifications distinct from the action defined by BSCP15 3.3.1. Therefore, as the BSCP is discrepant with other industry documentation and with the operational process, this PR should be raised and initially allocated to the originators of the BSCPs (ELEXON BRARTs - Nicola Knight / Clive Tilley) for resolution"  <b>LCRA Response:</b> "Once a Supplier has successfully completed the interface tests BSCCo notifies the CRA to register the Supplier, and hence automatically allocate the 12 Default BM Units. BSCP15 3.3.1 and BSCP65 3.1.11 are the same action if BSCP15 3.3.1 were amended to say "Notification of a new Supplier and Base BM Unit Ids."  In both procedures the process is also followed through for BSCP15 3.3.2 and BSCP65 3.1.13 (BSCP65 3.1.13 notes the BSCP15 link.)"
