

Change Proposal – F40/01 (Page 1 of 2)

CP No: 635
(mandatory by BSCCo)

Title (mandatory by originator) Changes to CRA URS

Description of Change (mandatory by originator)

This Change Proposal has been raised to address inconsistencies initially identified by the NETA Programme and subsequently reviewed by ELEXON. (IRP CP022)

There are several procedures described in the BSCPs which do not currently have a match in the CRA URS v.2.4:

Inconsistencies 19 & 20 (Log Ref. CRA_09 & 10)

BSCP15 v.2 section 3.5: De-registration of specific BM Units.

Inconsistency 56 (Log Ref. CRA-I031)

BSCP20 v. 3 form F20/4.7: De-registration of Metering Systems.

Inconsistency PWC2

BSCP31 v.2 section 3.2.4: De-registration of a Trading Party.

Inconsistency 57 (Log Ref. CRA-I003)

BSCP20 v.3 form F20/4.8 is used to register a new Meter Operator Agent. The CRA URS does not allow for new MOA registrations.

Inconsistencies 145, 146, 147 & 148 (Log Refs. CRA_4, 5, 6 & 7)

BSCP 20 v.3 sections 3.3.3, 3.3.4, 3.3.5 and describe the process whereby an old registrant can object to a change of registrant of a metering system. If an objection is raised, the CRA has to inform the CDCA and then refer the matter to BSCCo. Section 3.4.3 goes on to say that an MOA can also raise objections about changes of meter registration.

The CRA URS does not contain any of these processes.

Inconsistency 1 BSC_A URS_CRA

Section A 3.3.5 of the Code version 1.1 states that "BSCCo shall establish and maintain a list of names, addresses and participation capacities of each Party and shall:

- (a) send a copy of such list (as revised and updated from time to time) to the CRA;"

The CRA URS does not make reference to the receipt of such information.

Proposed Solution(s) (mandatory by originator)

The CRA URS needs to be amended to describe these de-registration and objection procedures clearly and in accordance with the relevant BSCP.

Inconsistency 1 BSC_A URS_CRA

CRA URS needs to be updated to acknowledge the receipt from BSCCo of updated Party information.
