

**Title** (mandatory by originator)

Inconsistency of Terminology between the BSC, Code Subsidiary Documents (CSD) and BSC Agent

**Description of Change** (mandatory by originator)

Four items of terminology relating to Indebtedness Data in CSDs and BSC Agent Specifications do not match those in the BSC. The items within the CSDs and BSC Agent Specifications are:

- Credited Energy Volume
- Aggregated Energy Contract Volume
- Indebtedness (%)
- Credit Limit

The corresponding items within the BSC are:

- Credit Assessment Credited Energy Volume
- Account Bilateral Contract Volume
- Credit Cover Percentage
- Energy Credit Cover

**Proposed Solution(s)** (mandatory by originator)

It is proposed that the inconsistent items contained within the CSDs and BSC Agent Specifications be replaced with the accurate terminology in order to maintain consistency with the BSC.

The attached document contains a table describing the location of proposed changes within the relevant affected documents.

**Justification for Change** (mandatory by originator)

PMRs (PMR23915, PMR24053 and PMR25044) have been raised and HelpDesk clarifications required relating to the interpretation of the four items in the CSDs and the BSC Agent Specifications. These items are critical to the management of Credit Cover.
