

<p align="center">Change Proposal – F40/02 (Page 1 of 2)</p>	<p align="center">CP No: 605 S2I 760</p>
<p>Title: UNIX Version of PCSec</p>	
<p>Description of Change Develop a version of PCSec to run under UNIX. This was first documented as NCR261. An investigation by Logica is therefore required to determine costs and timescales involved in providing versions of the PCSec utility on UNIX platforms. Note: The investigation of this requirement should also consider the enhanced functionality that is described by other outstanding Change Proposals that relate to PCSec.</p>	
<p>Proposed Solution(s) A version(s) of PCSec to run under UNIX</p>	
<p>Justification for Change This change was proposed by the NETA Programme. ELEXON undertook to take this forward after NETA Go Live.</p>	
<p>Other Configurable Items Potentially Affected by Proposed Solution(s) (<i>optional by BSCCo</i>) None</p>	
<p>Impact on Core Industry Documents (<i>optional by originator</i>) None</p>	
<p>Related Changes and/or Projects See also: S2I 757 Three Enhancements for next release of PCSec S2I 758 PCSec as a Window NT Service S2I 759 Removal of restriction on Polling Interval S2I 761 Support for PCSec under Windows 2000 S2I 762 Error Messaging</p>
