

Redlined BSCP509 for CP1396 ‘Clarifications and Formalising scenarios for the BSCP509 Market Domain Data Change Request Process’

CP1396 proposes changes to BSCP509 sections 1.3, 3.1, 3.3, 3.6 and 4.4.

We have redlined these changes against conformed Version 19.1, which includes all changes already approved to BSCP509 but have not been implemented.

No impact on section 1.1 - 1.2

1.3 Use of the Procedure

This BSCP must be used to progress all changes to those data items designated as MDD. The need to make changes to MDD may be identified by the Panel, one of its Panel Committees, relevant BSC Agents, or Parties, depending upon the nature of the change. Appendix 4.1 outlines who can raise an MDD CR and provides a list of MDD Entities. In order to progress an MDD CR, the originator is required to complete the MDD CR (using F509/01) with the aid of the scenarios set out in BSCP509 Appendix 2: MDD Change Request Entity Validation¹ together with the valid section from the MDD Entity Form. Appendix 4.4 outlines the MDD Entity forms used by this BSCP.

There are two key milestones in this BSCP:

- The SVAA is to be notified by BSCCo of a change to MDD no later than 7 Working Days (or as otherwise agreed between BSCCo and the SVAA) before the Go Live Date.
- MPs have 2 Working Days from the receipt of the MDD to contact BSCCo if they believe that the change to MDD as notified is not as agreed or invalid. If BSCCo determines that the MDD publish is not as agreed it will assess the severity of the impact of any error. BSCCo will then determine whether any relevant error should be removed in the next publish of MDD or whether the emergency fix process should be used (see Section 3.5).

No impact on Section 1.4 to 2

¹ BSCP509 Appendix 2: MDD Change Request Entity Validation, details an array of scenarios in which an MDD CR may be required along with the information that should be included with such MDD CRs.
