

Modification Proposal – BSCP40/03	MP No: <i>(mandatory by BSCCo)</i>
Title of Modification Proposal: Required Housekeeping Changes to Implement P295 and EMR	
Submission Date: 14 August 2014	
Description of Proposed Modification This Modification proposes minor changes to BSC Section V to correct a discrepancy between the P295 Legal text that will be implemented on 16 December 2014 and the EMR legal text changes directed and implemented on 1 August 2014.	
Description of Issue or Defect that Modification Proposal Seeks to Address The P295 solution is due to be implemented on 16 December 2014 and introduces a new section 5 into BSC Section V. The EMR legal text changes were directed and implemented on 1 August 2014 and also introduced new section 5 into BSC Section V. Since P295 was progressed before EMR was directed it was not possible to consider the P295 solution when drafting the required BSC changes. This means that when P295 is implemented on 16 December 2014 the new section 5 introduced by EMR will be overwritten by the section 5 introduced by P295.
