BSC PROCEDURE

Metering Dispensations

BSCP32

~~Version 8.0~~ Version 8.1

Date : ~~23 February 2006~~

BSC PROCEDURE 32**relating to****METERING DISPENSATIONS**

1. Reference is made to the Balancing and Settlement Code and, in particular, to the definition of "BSC Procedure" in Section X, Annex X-1 thereof.
2. This is BSC Procedure 32, ~~Version 8.0~~ Version 8.1 relating to Metering Dispensations.
3. This BSC Procedure is effective from ~~23 February 2006~~
4. This BSC Procedure has been approved by the Panel.

1 Introduction

1.1 Purpose and Scope of the Procedure

Metering Equipment shall, save as otherwise provided in the Code, comply with the minimum requirements referred to or set out in the relevant Code of Practice. If for practical and/or financial reasons any Metering Equipment or Metering System comprised therein does not meet all or any of the requirements referred to, or set out in the relevant Code of Practice, the Metering Equipment or Metering System may be the subject of an application for a Metering Dispensation from that relevant Code of Practice in accordance with this BSCP32 and Section L of the Code.

The relevant Code of Practice in respect of any Metering Equipment comprising any Metering System shall be determined by reference to Section L of the Code.

This procedure outlines the responsibilities with regard to processing applications for Metering Dispensations, and outlines the timeframes involved. It also details the information required for submission with an application, notifications to Parties and records to be maintained in respect of all Metering Dispensations.

This procedure also sets out the criteria to be used by the Panel in considering a Metering Dispensation application and the requirement of the Applicant to declare his intended course of action, in writing to the Panel, within a specified timescale following approval of the application.

Metering Dispensations may be granted on such conditions (if any) as the Panel may deem fit.

1.2 Main Users of the Procedure and their Responsibilities

This BSCP is to be used by the following:

- The Registrant or intended Registrant of the Metering Equipment.
- The Applicant(s) for generic Metering Dispensations.
- The BSCCo, for processing applications and maintaining records of all Metering Dispensations.
- The Panel, for endorsing or rejecting Metering Dispensation applications.

1.3 Balancing and Settlement Code Provision

This BSCP should be read in conjunction with the Code and in particular Section L.

This BSCP has been produced in accordance with the provisions of the Code. In the event of an inconsistency between the provisions of this BSCP and the Code, the provisions of the Code shall prevail.

1.4 Associated BSC Procedures

This procedure interfaces with the following BSCPs:

Formatted: Heading 2, Space Before: 0 pt, After: 0 pt

Field Code Changed

BSCP20	Registration of Metering Systems for CVA
BSCP27	Technical Assurance of Half Hourly Metering Systems for Settlement Purposes
BSCP38	Authorisations [Housekeeping: redundant item] (or where appropriate BDTP38). Please note references throughout this document to BSCP38 also relate to the associated BDTP38 where appropriate
BSCP501	Registration of Metering System for Supplier Volume Allocation
BSCP514	SVA Meter Operations for Metering Systems Registered in SMRS

1.5 Metering Dispensation Applications

The Registrant of a Metering System may apply for Metering Dispensations that apply specifically to the Metering Equipment in that Metering System. In addition the Panel may, on its own initiative or upon the application of a Party, establish Metering Dispensations that apply to any item of Metering Equipment.

When making any application, the Applicant must allow sufficient time for the approval process to be completed prior to the installation / commissioning of the associated Metering System. Applicants may request confidentiality ~~via the by clearly identifying so on the application form (BSCP32/4.1). Where the Applicant requests confidentiality, it must be clearly stated in the application the information that is considered confidential and the reasons why confidentiality is requested. The BSCCo will make available all information necessary for the BSC Panel or its delegated Panel Committees to perform their duties in the technical assessment of the application. This may include any information considered confidential by the Applicant. In all cases, the site name, Metering Dispensation number, expiry date (if time limited) and BSC Panel determinations will be made available in the public domain, unless the Applicant specifically agrees otherwise with the BSCCo.~~

Applications for the extension of time limited Metering Dispensations should be submitted as soon as the Applicant becomes aware that an extension may be required and in any event prior to the termination of the relevant Metering Dispensation. Consideration should be given to the timescales required in order for the Metering Dispensation application to be processed and decided on by the relevant Panel Committee. Failure to do so could result in the Metering System being non-compliant with the BSC and hence be subject to escalation to the BSC Panel.

In all cases, where the BSCP32/4.1 application form is not adequately or properly completed, the BSCCo reserves the right to reject the application at the submission stage and request such information to be provided before the application is progressed further.

Formatted: Font: 12 pt

1.6 Register of Metering Dispensations

The BSCCo shall record the progress of such applications and shall provide the appropriate levels of security for both access to and modification of the contents of

Field Code Changed

such register. The BSCCo shall provide such reports from the Metering Dispensation register as the Panel may require. The BSCCo will provide the TAA with duplicate copies of all existing Metering Dispensations. The BSCCo will be responsible for the operation and maintenance of the Metering Dispensation register.

1.7 Classification of Metering Dispensations

Metering Dispensations are classified against a number of criteria. Each Metering Dispensation will have an associated Term ('Temporary' or 'Lifetime') and location ('site specific' or 'generic'). Modifications to or extensions of existing Metering Dispensations should be identified as Updates. The Panel may impose conditions on any Metering Dispensations granted. Generic Metering Dispensations apply to specific items of Metering Equipment which may be used to form any number of Metering Systems, subject to the conditions of that Metering Dispensation.

1.8 Notification of CVA Metering Dispensations

The BSCCo will notify the Party concerned of the existence of any valid CVA Metering Dispensations during the registration process. In addition, the BSCCo will publish and maintain a list of all generic Metering Dispensations on the BSC Website.

1.9 Factors Affecting Metering Dispensations

The Panel shall, in considering an application, take into account location, accuracy, functionality of the proposed Metering Equipment and such other factors as they may consider appropriate in relation to the requirements of the relevant Code of Practice.

If it is shown that the Applicant failed to seek the views of any Affected party then any Metering Dispensation agreed may be rendered void. Where the Applicant fails to receive any response from an Affected party, provided the Applicant can prove that it has taken reasonable steps to ensure delivery of notification of its application this shall be sufficient evidence of such notification.

If the Panel believe at any time that relevant circumstances have changed they may withdraw or amend a Metering Dispensation.

If

- (i) a Metering Dispensation is rendered void; or
- (ii) a Metering Dispensation has been agreed for a limited period and such periods have expired; or
- (iii) a Metering Dispensation has been agreed on conditions that certain circumstances will subsist and any of such circumstances shall cease to apply,

then the Applicant may submit a further application in respect of the subject matter of such Metering Dispensation providing that there has not been any change to the Metering Equipment or Metering System since the original application was made. Otherwise a new application for a Metering Dispensation shall be submitted.

Holders of time limited Metering Dispensations should, before the expiry date of the Metering Dispensation, have carried out one of the following actions:

- (iv) Withdrawn the Metering Dispensation; or
- (v) Given written confirmation of compliance to the BSCTCo; or
- (vi) Applied for an extension to the Metering Dispensation.

The Panel may instruct the TAA to carry out a targeted visit at any time, in accordance with BSCP27.

2 Acronyms and Definitions

2.1 List of Acronyms

The following is a list of acronyms used in BSCP32:

BSCP	Balancing and Settlement Code Procedure
BSCCo	Balancing and Settlement Code Company
CMRS	Central Meter Registration Service
CoBO	Change of BM Unit Ownership
CoP	Code of Practice
LDSO	Licensed Distribution System Operator
SMRA	Supplier Meter Registration Agent
SMRS	Supplier Meter Registration Service
TAA	Technical Assurance Agent
TC	Transmission Company
WD	Working Day

2.2 List of Definitions

Affected parties For site specific Metering Dispensations, Affected parties may include: customers; TC; LDSOs; and any Party other than the Registrant responsible for Aggregation Rules relating to such Metering Equipment.

Where the Metering System has not been registered at the time of application, Affected parties include all BSC Parties.

For generic Metering Dispensations, Affected parties include all BSC Parties.

Appropriate parties Any person(s) that the BSCCo or the Panel considers appropriate for consultation. This may include independent experts [such as the Metering Dispensation Review Group \(MDRG\)](#).

Defined Metering Point Defined Metering Point means the physical location at which the overall accuracy requirements as stated in the relevant Code of Practice are to be met. The Defined Metering Points are identified in the Codes of Practice and relate to Boundary Points and System Connection Points.

Other terms are defined in the Code.

3 Interface and Timetable Information

3.1 Application for Metering Dispensation ([Site](#) Specific, Generic)

REF	WHEN	ACTION	FROM	TO	INPUT INFORMATION REQUIRED	MEDIUM
3.1.1	Where appropriate, but before submission of application	Notify and seek endorsement from all Affected parties of intention to apply for a Metering Dispensation from relevant Code of Practice	Applicant	Affected parties	Details of site involved and Metering Dispensation being applied for	Fax / Post / Email
3.1.2	As required	Submit application requesting a Metering Dispensation	Applicant	BSCCo	<p>BSCP32/4.1, Application for a Metering Dispensation</p> <p>Where appropriate include letter of endorsement from Affected parties.</p> <p>Application forms must be signed by a Category R Authorised Person as registered under BSCP38, or include their password and be sent from the Authorised Person's email address.</p> <p>Please note that all fields must be filled out in form BSCP32/4.1, or the application will not be progressed. Please see the guidance note on the BSCCo website for details on how to fill out form BSCP32/4.1.</p>	Fax / Post / Email

REF	WHEN	ACTION	FROM	TO	INPUT INFORMATION REQUIRED	MEDIUM
3.1.3	Within 2 WD of 3.1.2	Acknowledge receipt of application Check application for validity and completeness Issue reference number Record application and reference number in register	BSCCo	Applicant	BSCP32/4.1 Application for a Metering Dispensation	Fax / Post / Email
3.1.4	Within 5 WD of 3.1.3 where appropriate	Where additional information or clarifications are required for a determination to be reached, request such information from the Applicant.	BSCCo	Applicant	Request for specific information	Fax / Post / Email
3.1.5	As required	If request for more information received, provide requested information as agreed between the BSCCo and the Applicant.	Applicant	BSCCo	Requested information	Fax / Post / Email
3.1.6	Within 2 WD of 3.1.3 or 3.1.5 (as appropriate)	Notify Appropriate parties and request comments	BSCCo	Appropriate parties	BSCP32/4.1, Application for a Metering Dispensation Additional information as appropriate	Fax /Post /Email
3.1.7	Within 10 WD of 3.1.6	Provide comments	Appropriate parties	BSCCo	Requested comments	Fax /Post /Email

4 Appendices

4.1 Application for a Metering Dispensation

Form, BSCP32/4.1 should be used by the Applicant when applying for a Metering Dispensation. It is also used by the BSCCo to acknowledge receipt of the application.

4.2 Form BSCP32/4.2 is no longer used.

4.3 Form BSCP32/4.3 is no longer used.

4.4 Notification of Panel Ruling on Metering Dispensation Application

Form, BSCP32/4.4 should be used by the BSCCo to communicate the Panel decision with regard to a particular Metering Dispensation application to the TAA and the Applicant. It should also be used by the Applicant when acknowledging and accepting the Panel determination.

4.5 Application to Withdraw a Metering Dispensation

Form BSCP32/4.5 should be used by the Applicant when withdrawing a proposed or approved Metering Dispensation. Such a withdrawal implies that the Applicant will now meet the requirements of the Code of Practice from which he may previously have held a Metering Dispensation. The BSCCo will also use the form to acknowledge receipt of the withdrawal both to the Applicant and to the TAA.

4.6 Form BSCP32/4.6 is no longer used.

4.7 Forms

All the forms for use in this BSCP are shown below.
