

**Redlined BSCP601 text for CP1466 'Removing SMETS compliant Meters from the scope of BSCP601'**

This CP proposes changes to BSCP601 'Metering Protocol Approval and Compliance Testing' Sections 1.1 and 3.4.22.

We have redlined these changes against Version 18.0.

**There is no impact on any other part of this document for this CP.**

*Amend BSCP601 Section 1.1 'Scope and Purpose of the Procedure' as follows:*

## **1.1 Scope and Purpose of the Procedure**

This BSC Procedure defines the processes for Meter Manufacturers, Meter Operator Agents, Suppliers, Half Hourly Data Collectors and other Half Hourly Metering Equipment users to apply for Compliance Testing and Protocol Approval. This procedure covers the application process, submission of Metering Equipment, communications with the Compliance and Protocol Testing Agents, the issue and removal of certificates. For the avoidance of doubt, this procedure applies only to Half Hourly Metering Equipment.

This BSC Procedure does not apply to Metering Equipment that is compliant with the Smart Metering Equipment Technical Specification (SMETS) or to communications with such Metering Equipment.

*Amend BSCP601 Section 3.4.22 'Level 1 Passwords' as follows:*

### **3.4.22 Level 1 Passwords**

~~For CoP10 Outstations which comply with the SMETS security regime, tests 094 to 113 shall be confirmed using the relevant SMETS security access. For the avoidance of doubt it is for the Testing Agent to confirm that the Outstation is capable of meeting these requirements under secure conditions.~~
