

Redlined BSCP536 text for CP1481 'Housekeeping Change following approval of P339'

This CP proposes changes to BSCP536 section 4.12.2.

The redlined changes for CP1481 are shown below in red. In addition, we have shown the tracked changes from P339 in blue. We have redlined these changes against Version 15.0.

This version of the redlined changes (version 2.0) is materially the same as the version put before SVG and PAB (version 1.1) with the only difference being the addition of this cover page.

There is no impact on any other part of this document for this CP.

Amend section 4.12.2 to read as follows:

4.12.2 Supplier Charge Apportionment Report – one provided for each Supplier as front sheet to Supplier Trading Reports (4.12.3)
