

CP Consultation Responses

CP1490 'Changes to BSCP27 and Technical Assurance Agent Service Descriptions to remove constraints to service improvement'

This CP Consultation was issued on 10 July 2017 as part of CPC00779, with responses invited by 4 August 2017.

Consultation Respondents

Respondent	No. of Parties/Non-Parties Represented	Role(s) Represented
npower	Eight	Generator; Supplier; Non Physical trader
Scottish Power MOA	One	MOA
TMA Data Management Ltd	One	HHDC; HHDA; NHHDC; NHHDA

Summary of Consultation Responses

Respondent	Agree?	Impacted?	Costs?	Impl. Date?
npower	✓	✗	✗	✓
Scottish Power MOA	✓	✗	✗	✓
TMA Data Management Ltd	✓	✗	✗	✓

Question 1: Do you agree with the CP1490 proposed solution?

Summary

Yes	No	Neutral/No Comment	Other
3	0	0	0

Responses

Respondent	Response	Rationale
Npower	Yes	I agree with the proposed solution for CP1490. By having fewer restraints in contracting the correct TAA this ensures that we can provide an in depth and more specialised review of the TAA and therefor improve metering assurance. The options proposed could provide a greater service at a compatible cost and as the fundamentals are not being changed there is no worry that the auditors are going to audit things not relevant to the BSCP27. My only opinion in regards to change of contracts could mean that these companies may have different ways of working which could lead to confusion and further investigation / training from all parties who use the interactive webpage.
Scottish Power MOA	Yes	We agree with the proposed solution within CP1490
TMA Data Management Ltd	Yes	<i>(No rationale provided)</i>

Question 2: Do you agree that the draft redlining delivers the CP1490 proposed solution?

Summary

Yes	No	Neutral/No Comment	Other
3	0	0	0

Responses

A summary of the specific responses on the draft redlining can be found at the end of this document.

Respondent	Response	Rationale
Npower	Yes	<i>(No rationale provided)</i>
Scottish Power MOA	Yes	We agree with the proposed solution within CP1490
TMA Data Management Ltd	Yes	<i>(No rationale provided)</i>

Question 3: Will CP1490 impact your organisation?

Summary

Yes	No	Neutral/No Comment	Other
0	2	0	1

Responses

Respondent	Response	Rationale
Npower	Other	Changes to the relevant process for managing TAA will need to be looked into from the HHMOP / HHDC and CVA departments. As the redlining changes mention software system and not electric online tool it would all depend on what this software system is and how this is used and installed. If it is required to be installed onto employee's computers then this could incur a cost from IT to implement and then also time from the acting members work load to set up and test any issues present. The differences in impact will vary slightly but only in how each member inputs specific documents according to the BSCP
Scottish Power MOA	No	We do not believe this will have a significant impact on our organisation.
TMA Data Management Ltd	No	<i>(No rationale provided)</i>

Question 4: Will your organisation incur any costs in implementing CP1490?

Summary

Yes	No	Neutral/No Comment	Other
0	2	0	1

Responses

Respondent	Response	Rationale
Npower	Other	The costs incurred would have to be investigated with the IT department depending on if any psychical system changes are required i.e. install of software / licensing. There will also be one working day required to implement changes to the process.
Scottish Power MOA	No	We do not foresee any material costs in its implementation
TMA Data Management Ltd	No	<i>(No rationale provided)</i>

Question 5: Do you agree with the proposed implementation approach for CP1490?

Summary

Yes	No	Neutral/No Comment	Other
3	0	0	0

Responses

Respondent	Response	Rationale
Npower	Yes	I agree with the proposed implementation the date seems reasonable provided that the contracts are award and all parties notified of who will be carrying on the work for TAA.
Scottish Power MOA	Yes	No further comments
TMA Data Management Ltd	Yes	<i>(No rationale provided)</i>
