9 February 2018

Dear Colin Down,

**The BSC Panel recommends that [P361 'Revised treatment of BSC Charges for Lead Parties of Interconnector BM Units'](#) should be treated as an Urgent Modification Proposal.**

BSC Modification P361 was raised by Nord Pool Spot AS on 31 October 2017. On 31 January 2018 the Proposer wrote to ELEXON to request that P361 should be treated as an Urgent Modification Proposal. Attachment A contains the Proposer's request and rationale. Attachment B contains the associated BSC Panel paper, which summarises the Modification Proposal and the urgency request.

The BSC Panel (Panel) considered the Proposer's request on 8 February 2018 in accordance with the procedures set out in Section F 2.9. The Panel unanimously recommends to the Authority that P361 should be progressed as an Urgent Modification Proposal for the reasons set out by the Proposer.

We now seek the Authority's determination as to whether P361 should be granted urgency and, if so, to direct the process and timetable to be followed.

### Proposed progression timetable

The Panel has recommended the following progression timetable. It should be noted that this is the same as the current approved P361 progression timetable.

Proposed Progression Timetable for P361 as an Urgent Modification	
Event	Date
Present Initial Written Assessment to Panel	9 Nov 17
Workgroup Meeting 1	8 Jan 18
Workgroup Meeting 2	12 Feb 18
Assessment Procedure Consultation and Industry Impact Assessment (15WDs)	12 Mar 18 – 3 Apr 18
Workgroup Meeting 3	W/B 9 Apr 18
Present Assessment Report to Panel	10 May 18
Report Phase Consultation (12 WDs)	16 May 18 – 1 Jun 18
Present Draft Modification Report to Panel	14 Jun 18

Proposed Progression Timetable for P361 as an Urgent Modification	
Event	Date
Issue Final Modification Report to Authority	21 Jun 18

Yours sincerely,

Douglas Alexander  
Modification Secretary
